EDUCATION

Shri Vishnu Engineering College for Women
B.Tech in CSE (AI & ML) – CGPA: 9.44

Bhimavaram, Andhra Pradesh
2024 – 2028

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript, SQL, C

Core Subjects: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Web Technologies: HTML, CSS, React.js, Node.js, Express.js

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code

EXPERIENCE

Web Development Intern – ApexPlanet Software Pvt. Ltd.

Jun 2026 – Jul 2026

- Designed 4+ responsive web interfaces using HTML, CSS, and JavaScript.
- Applied DOM manipulation and event-driven programming to create interactive user experiences.
- Debugged and optimized client-side functionality, improving responsiveness and usability across multiple pages.

PROJECTS

AttendQR

[GitHub](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Engineered a QR-based attendance management system comprising 2 user roles and 8+ backend API endpoints.
- Secured the platform through JWT authentication, role-based access control (RBAC), and 8+ REST API endpoints supporting faculty and student workflows.
- Automated attendance verification using QR-code generation and scanning, reducing manual attendance recording effort by approximately 90%.

Planora

[GitHub](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Architected a full-stack event management platform supporting 3 core workflows: event creation, registration, and participant tracking.
- Developed 6+ REST API endpoints for event CRUD operations, authentication, and event management workflows.
- Optimized MongoDB-backed data storage and designed responsive interfaces for efficient event organization and tracking.

Docify

[GitHub](#)

Tech Stack: Python, Tkinter, SQLite, PyTesseract

- Engineered an OCR-powered document digitization system using Python, PyTesseract, and SQLite.
- Enabled full-text search, document indexing, and keyword highlighting across 3 document-processing modules.
- Automated text extraction and indexing workflows, reducing manual document search effort by approximately 70%.

SlideSnap

[GitHub](#)

Tech Stack: Python, Tkinter, OpenCV

- Created a desktop application that extracts presentation slides from recorded video lectures.
- Leveraged OpenCV-based scene transition detection and dual-threshold frame analysis to identify slide boundaries automatically.
- Achieved nearly 80% slide extraction accuracy while reducing manual slide capture effort by approximately 85%.

CERTIFICATIONS

- NPTEL – The Joy of Computing Using Python (Elite + Silver) – 2026
- Google – Introduction to Generative AI – 2025
- Google – Introduction to Responsible AI – 2025

ACHIEVEMENTS

- Maintained a CGPA of 9.44/10 in B.Tech CSE (AI & ML).
- Secured Elite + Silver certification in NPTEL's The Joy of Computing Using Python course.
- Top 5 Team in Failathon 2.0 Campus Innovation Challenge.
- Secured 96.38 percentile in JEE Main 2024.
- Achieved Rank 6401 in AP EAPCET 2024.
